

THE AI INNOVATION WORKSHOP

Map the use cases that make you a **Frontier Firm**.

A complimentary all-day, in-person session at the Microsoft Innovation Hub. We map your AI use cases across Microsoft's four outcomes, score each on impact, feasibility, and desirability, and hand you a prioritized roadmap with a recommended first proof of concept.

All-Day

In person at the Innovation Hub

3-5

Prioritized AI use cases

1 POC

Scoped before you leave

Free

No cost, no commitment

THE METHOD

We map across all four outcomes.

01 Enrich employee experiences

Copilot adoption done safely, so your people get productive without opening a data risk.

03 Reshape business processes

Agents that automate the work, from Copilot Studio flows to custom agents on Azure AI Foundry.

02 Reinvent customer engagement

AI that reshapes how customers experience you, grounded in your own data.

04 Accelerate innovation

AI embedded into your own products and platforms on Azure, the edge competitors cannot copy.

HOW THE DAY RUNS

Discover, score, then roadmap.

01 · DISCOVER

Hours 1-2

Pain points and live demos

We capture your pain points and manual workflows live, then show real AI we have delivered. Working agents, RAG, and Fabric, not slides.

02 · MAP & SCORE

Hours 3-4

Across the four outcomes

Place candidate use cases across the four outcomes and score each on impact, feasibility, and desirability. Narrow to the top 3 to 5.

03 · ROADMAP

Hours 5-6

Architecture and first POC

Architecture sketches, effort, investment, and time-to-value ranges, and the recommended first proof of concept.

WHY ARCHITECTNOW

● AI Apps on Azure Specialization

Plus four Microsoft Solutions Partner designations. Production AI on Azure, verified by Microsoft.

● Azure AI MVP on staff

Workshops led by a Microsoft-recognized Azure + AI MVP, with 15+ years on the Microsoft stack.

● Foundation first

We map on a secured data and governance foundation, set with the Cloud Adoption Framework for AI, Purview, and Zero Trust.

● A Frontier Firm ourselves

We have adopted Microsoft's Frontier Firm model inside ArchitectNow, the same path we map for you.
