

THE REVIEW

Azure, scored against **all five pillars**, not a checklist.

Microsoft's Well-Architected Framework is the gold standard for cloud architecture across five pillars: reliability, security, cost optimization, operational excellence, and performance efficiency. Our 4-week review scores your Azure environment against all five and delivers a prioritized remediation roadmap.

WHAT YOU GET

A scored Azure estate, four deliverables deep.

01 Five-Pillar Assessment Report

Scored evaluation of your Azure resources against Well-Architected best practices.

03 Cost and Reliability Analysis

Right-sizing and reserved-instance opportunities, availability gaps, backup and DR readiness.

02 Security and Compliance Review

Identity, network security, data protection, and Azure Policy compliance gaps.

04 Prioritized Remediation Roadmap

Quick wins (30 days), medium-term (90 days), and strategic improvements (6 months).

HOW IT WORKS

Three phases. Scope locked at kickoff.

01 · DISCOVERY

Week 1

Scoping and discovery

Azure resource inventory, architecture review, stakeholder interviews, Azure Advisor analysis.

02 · ASSESS

Weeks 2–3

Five-pillar evaluation

Security scanning, cost analysis, and performance benchmarking across all five pillars.

03 · READOUT

Week 4

Executive readout

Findings consolidated into a prioritized, sequenced plan to optimize your Azure estate.

WHY ARCHITECTNOW

● 4 Solutions Partner Designations

Data & AI · Digital & App Innovation · Infrastructure Azure · Support Services.

● Azure AI MVP on staff

Engagements led by Microsoft-recognized practitioners with

● AI Apps on Azure Specialization

Held by a small fraction of partners. Production AI on Azure, verified by Microsoft.

● Microsoft funding pathway · eligible engagements

Our Azure specialization lets us nominate qualifying
